01 ACCURATE ORDER MANAGEMENT

The ZTeamwork app allows the production supervisor to monitor, manage and evaluate the progress of orders, activities and projects, even without an Internet connection, thanks to the 'offline' working mode.

02 REAL TIME MONITORING OF ACTIVITIES

The supervisor can make a real time comparison between the budget forecast and the hours actually worked, verifying the progress of activities and the workload of employees in order to intervene in the event of differences.

03 TOTAL INTEGRATION FOR COMPREHENSIVE PERSONNEL MANAGEMENT

By integrating the ZTeamwork app with the Zucchetti Infinity ZTimesheet software, the data collected is used in attendance management, payslip and invoice processing, and accounting processes.
